Catholicism

Come and enjoy Fr. Robert Barron's series,
Catholicism! This dynamic series takes you
around the world, exploring the teachings and
history of the Church. Each episode is stand alone,
so even if you can only attend a few times you will still gain
valuable insight into our faith. The **Catholicism** series is being
shown Tuesday evenings from 6:30-7:30 through April 3rd.

Word-of-Life

The potential benefits of adult stem cell research are very considerable since they open up possibilities for heal-
ing chronic degenerative illnesses by repairing damaged tissue and restoring its capacity for regeneration.
The improvement that such therapies promise would constitute a significant step forward in medical sci-
ence, bringing fresh hope to sufferers and their families alike. For this reason the Church naturally offers
her encouragement to those who are engaged in conducting and supporting research of this kind, always with the provi-
so that it be carried out with due regard for the integral good of the human person and the common good of society.

~Pope Benedict XVI, *Address to the Participants in the "International Conference on Adult Stem Cells:
Science and the Future of Man and Culture," November 12, 2011*
